Bangor, Oct. 11, 1866. 2m

SNOW POWDER
Patented May 29, 1866.
This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT THE CLOTHES, but will leave them much WHITER than ordinary methods, without the usual wear and tear.
It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.
This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used.—Among the advantages claimed are the following, viz:—
It saves all the expense of soap usually used on cotton and linen goods.
It saves most of the labor of rubbing, and wear and tear.
Also, for cleaning windows it is unsurpassed.—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.
Directions with each package.
And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.
The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied. Manufactured by
HOWE & STEVENS,
260 Broadway, Boston.
For sale by Grocers and Dealers everywhere.

PROPOSALS

FOR GRANITE WALL FACING, to be delivered at Great Brewster Island Boston Harbor, will be received till noon of November 1, 1866.

To be of the following description and amounts—the offers stating the price per superficial foot, vertical face measure, for the front of the Wall. And separately, for the face of the Coping; to wit—for the facing and coping of 500 to 550 lineal feet of wall as may be required.

This wall to be of nine courses, including coping, with rises, lengths, &c., as follows—For the FACING, 8 courses, having rises from the top course downward as follows—one of 2 feet 2 inches; one of 2 feet 1 inch, four courses of 2 feet each, one of 1 foot 11 inches, and one (the lower course) of 1 foot 10 inches. And the COPING shall have 2 feet rise, the whole making a front of wall 18 feet in height. For the FACING, the stretchers are not to be more than 9 feet long on the face, and are to average in width equal to the rise, not varying more than 3 inches from that width. The breadth of the headers (or length on the face) to be not less than the rise of the course, and they are to average at least the breadth of front throughout, and to be at least 5 feet long. The joints of headers will be dove tailed ¾ of an inch to 1 foot from the front, the ends of the stretchers being bevelled to correspond. The "beds" of the headers, and their "builds" and "joints," for three inches more than the rise of the course from the front. Also the entire "build" of the headers of the upper, or 2 feet 2 inch course, and the "bed builds" and "joints" of all the stretchers will be rough "hammered straight" that is, out of wind, true to the square or bevel, with good full joints—and the arrises shall be straightened according to a batter on the face of the wall of one foot to 8 feet in height. The coping to be of 2 feet rise, to be 5 feet deep from the front, least width 2 feet 6 inches, and to average at least 3 ft. wide, and the beds and joints are to be rough hammered straight, the arrises for the front as above. *Color* of stone of no consequence if the material is sound and strong. The delivery of this stone, upon trucks at the wharf of Great Brewster Island, to commence about the 15th of April, 1867, and to continue regularly till the whole shall have been received, by the close of the following month of July at latest. Proposals will be considered for one half or for the whole of the above amounts. Payments will be made, if required, as cargoes are verified, 10 per cent being reserved from each till the contract is completed to the satisfaction of the Superintending Engineer.

There will also be required for delivery at the same Island from 2000 to 3000 tons of rough or "quarry shells" stone, for paving in rear of coping, which may vary from about one foot to not more than two feet in thickness. The stones not to be less than about one half ton weight to have split edges making joints with the best bed not varying more than 1 to 1½ inches to the foot, and they may be irregular in size or shape otherwise. Offers will be received for not less than 500 tons, or for the whole amount of this paving stone, the delivery on the cars, as above, to commence as early as practicable after completion of the contract—one half at least, by the 15th of December next. Payments to be made as above described for the cut stone.

Proposals for furnishing this stone (marked as such on the envelope), will be addressed to

TELEGRAPHIC.
Despatches to the Evening Times.

Cause of the Boiler Explosion at St. Louis—The New Mexico Indians Declare War.

TORONTO, C. W., Oct. 17.

The London correspondent of the Toronto Globe says it is confidentially reported that Lord Monck, Governor General of Canada, is to be recalled in consequence of French refugee Lamirando.

ST. LOUIS, MO., Oct. 17.

The cause of explosion of the boiler to day was its weakness, of which the proprietor is said to have been notified by his engineer some days ago. After the explosion the ruins took fire and burned furiously for some time in spite of the most desperate exertions of the firemen.

Two two story dwelling houses were also consumed. At this time the scene was most appalling; the appeals for aid of the helpless creatures in the ruins, and the frantic cries of their wives, children and relatives were heart rending.

Men are still at work removing the rubbish, but no more bodies have been found up to 9 o'clock.

NEW YORK, Oct. 18.

There were no cases or deaths of cholera in this city yesterday, and but one at quarantine.

NEW YORK, Oct. 18.

It is now positively asserted that the Evening Star was in an unseaworthy condition.

The St. Jean Baptist Benevolent Society of French Canadians have adopted measures for the immediate relief of the Quebec sufferers.

NEW YORK, Oct. 18.

The Times' Washington special says that in a few days an official, showing of the policy of the Government on the Alabama and Mexican affairs, will be promulgated.

The Tribune's Topeka (Kansas) special says that the Indians have declared war, and are near to Fort Garland, New Mexico, in strong force.

NEW YORK, Oct. 18.

Steamer James Green, from Georgetown, S. C., arrived here this morning. Reports 14th inst, saw a large brig ashore, 12 miles south of Fenwick's Island; the sea breaking over her. 17th, saw a schooner ashore, six miles north of Barnegat. Also saw steamer Empire, from Wilmington for New York, ashore on Sandy Hook; tried to pull her off, but the hawser broke. She probably got off next tide. On the 16th, steamer Monticello, from Savannah for Boston, put into Delaware breakwater, short of coal.

SANDY HOOK, Oct. 18.

The propellor Empire, from Wilmington, N. C., is ashore on the outside of the Hook. She is hogged and has 3 feet of water in the hold. Her cargo of rosin is strewn along the beach. She went ashore last night.

FORTRESS MONROE, Oct. 17.

It appears that C. C. Flint, late editor of The Norfolk Old Dominion, has succeeded in quitting the country, via Quebec, for Europe, under the name of Cornwall Barry, taking $22,000 in gold as the result of his forgeries.

A steamer, drawing 7 feet of water arrived here yesterday from Richmond, having passed through Dutch Gap.

UNDER LAKE MICHIGAN. Two submarine divers lately went down to the bottom of Lake Michigan near the famous "crib," sunk opposite Chicago, to facilitate the digging of the lake tunnel, for the purpose of recovering some chain cables. The water where they went down was thirty eight feet deep. They report at the bottom of the lake the water is always calm and clear, no matter what may be the commotion overhead. It is easy, with the contrivance used by them, to see with distinctness for a considerable distance. They could always tell when the surface of the water was rough, could distinctly observe the crib settled on the bed of the lake, with an embankment of sand several feet high already formed around it, and this bank of such compactness as almost of itself to hold it in its place. Within could be heard the noises made by the inhabitants of that structure, and they even fancied that sounds reached them from the tunnel, forty feet beneath them. They remained under water four hours at a time, and during that period many vessels, of all sizes, from a twenty ton pinnace to the Buffalo steamers, passed over their heads. The divers state that it was easy to distinguish the kind of vessel, as well as the size.—Sound, as is well known is conveyed with much greater distinctness through water than air. The passage of the smallest row boat was heard clearly, the coasting schooners and barques filled their ears with a confused din, while the steamers tore past with a noise like rushing thunder which deafened them until the vessel was far beyond.—[Journal.

REMARKABLE CASE OF LONGEVITY.—There lives in Ohio, our neighboring country, a Mrs French, the mother of David and Samuel French, who, we believe, is the oldest person now living in the bounds of the State of Kentucky. She was one hundred and thirteen years old last March. She is the daughter of the late Col. Shively, of Jefferson county, in this State, where she was born. Mrs. French's general health is now excellent, but experiences much inconvenience in moving about, caused by the weight of so many years resting on her.—Her mental faculties are good, and says she remembers incidents that occurred a century back more minutely than occurrence now transpiring. May the good old lady live a thousand years.—[Owensboro Monitor.

Under the supervision of the Quartermaster's Department ground is being enclosed at Point Lookout for two cemeteries for the interment of the remains of rebel soldiers who died at that place during the war, and one for remains of union soldiers. At Culpepper Court House, Va., a cemetery is located for the interment of the remains of all union soldiers who fell south of the Rappahannock and north of Gordonsville, including those who were killed at the battle of Cedar Mountain.

Honest Ben Freeman, the colored messenger of the Land Office at Washington, was asked what were his politics. "I'm an administration man, and have been for thirty years," answered Ben with innocent sarcasm.

The following advertisement appeared in an Irish paper:—"Whereas John Hall has fraudulently taken away several articles of wearing apparel without my knowledge, this is therefore to inform him that, if he does not forthwith return the same, his name shall be made public."

The Yarmouth (Mass.) Register says the heavy frost on some parts of the Cape on Friday night of last week has occasioned a severe loss to the cranberry crop, some estimating it as high as $10,000.

Those who denounce women's extravagance should read this:—"A London shirt maker has just finished a dozen shirts for a gentleman, the price of which is £120—. They are, it is stated, of the finest cambric, and have fronts embroidered with gold threads."

A gentleman recently from New Orleans, says that in a hotel in that city he heard the following toast proposed and drank:

Here's to the hand that drew the trigger
That shot the man that freed the nigger.

John Van Buren died on Saturday last on board the steamer Scotia. Mr. Van Buren went to Europe some time since for the benefit of his health, and for relief from professional and political engagements and duties, but he was too much worn down by previous hard work to receive permanent benefit from the trip. He was the second son of the late President Martin Van Buren, and was born at Hudson, N. Y., in 1810. He graduated at Yale College in 1828. His first appearance in public life was as Secretary of Legation, when his father represented the United States at the Court of St. James, in 1831-2. In 1845 the Legislature of New York elected him Attorney General of the State, and he held that office for two years, his first and last State position of any importance. In the political campaign of 1848, when Martin Van Buren and Charles Francis Adams were supported for President by a third party, which opposed the increase of slave territory in the United States. "Prince John", as he was familiarly called in New York, was active in advocating the principles of the new party and the election of his father. The election of Gen. Taylor threw the Van Burens, father and son, back into the Democratic party, and neither of them was ever afterwards identified with any other political organization. Both of of them voted for Pierce and Buchanan in 1852 and 1856, and against Lincoln in 1860, and in the last Presidential campaign John made speeches in behalf of Gen. McClellan. His confident prediction that McClellan would be triumphantly elected was a fair index of his want of political sagacity.

THE CALEDONIA TROUT POND. One of the greatest curiosities in Western New York—we may almost say one of the greatest in the world—is the trout-breeding establishment of Seth Green, at Caledonia, Livingston county N. Y., to which we paid a brief visit last week. His house and ponds are on the border of the stream called the Caledonia Springs, which flows in a great volume of the purest water from a small hollow in the village of Caledonia, and after a course of a mile unites in the village of Mumford with Allen's Creek one of the tributaries of the Genesee. The water through the whole length of the creek, as well as every stone, stick, weed, and blade of grass, is alive, and literally covered with numerous insects and larvæ of flies, summer and winter, so that the trout, however numerous they are, easily obtain all the food they want at all times of the year. There is but very little surface water that makes into the creek, hence the volume of water is very even. The first settlers of the country found the creek literally filled with trout of great size and beauty, and it has remained so to this day, notwithstanding it has been almost constantly fished, night as well as day, from that time to this. The largest and finest trout are taken in the evening, with a large artificial white or gray miller.—The number of trout, in this stream of a mile in length, is computed at upwards of 3000,000, the largest of which are each four or five pounds in weight. About 40000 pounds of trout are taken from the creek yearly. Mr. Ainsworth, of West Bloomfield, to whose excellent article published in the Tribune last winter we are indebted for these statistics, says that on the 18th of December, 1865, he took with a fly a hundred and ten fine trout in about three hours, and on the next day he took eighty five splendid fellows from one place. These trout, he says, were as fat, active and gamey as he ever saw them in any other stream in May or June. Seth Green, the celebrated marksman and fly thrower of this city, bought this creek in 1864, for the purpose of growing trout artificially as well as naturally, on an extensive scale. He has since prepared ponds, races, hatch house, and hatching-boxes and troughs for 300,000 of spawn. The pond containing the largest fish and principal spawners was first constructed.—A strong volume of water passes through it from the main stream, the quantity received and discharged being so regulated that there is no danger of overflowing. It enters under a wheel which is so exactly fitted to its place, that not the smallest fish can escape, and maintains a regular motion. This pond is seventy-five feet long, twelve feet wide, and four or five feet deep. Mr. Green's dwelling is over the lower end of this pond, which affords shade and a hiding place for the trout when they choose to retire from view. There are from eight to ten thousand fish in this pond, and water enough for fifty times that number. A great deal of food passes to them from the stream, but they are fed every day with beef-liver chopped very fine, to which they rush in the most excited manner, leaping out of the water, and tugging voraciously two or three at a time at the same piece. They are so tame that they will take the liver from a spoon or even from the hand, and will even bite the hand itself, as we can testify from the sharp experience of their teeth.

To a lover of fish, no finer sight can be presented than the sight of this pond, swarming with splendid trout, as plainly visible, so clear is the water, as if they were in the open air. It is a gigantic aquarium, which probably has no rival in the world, and the mere sights of which will repay the trouble and expense of a long journey. But besides this main pond, Mr. Green has another close by it, fifty by thirty feet, which contains about 20,000 two-year old trout, and still another, filled with countless multitudes of yearlings, and lastly a long pond or brook in which are hundreds of thousands of this year's hatching.—Syracuse Courier.

THE PHILADELPHIA LEDGER'S STORY. The publishers of the Ledger have been ferretting out the origin of the statement made to their Washington correspondent, that President Johnson was about to take the Attorney General's opinion as to the legal existence of the present Congress. This statement, the truth of which has been denied by the President, obtained a wide-spread belief when first made, in consequence of its close correspondence with the President's known ideas of Congress, as expressed by him in a recent speech (made at New York we believe.) The Ledger's correspondent says that the original manuscript was given to him by Mr. H. M. Flint of Washington, who is one of three or four persons who aid him in procuring Washington news. Mr. Flint confirms this, and the substance of his statement is as follows:

He says that a person in office told him that a paper dated at the executive mansion was seen on the table of the Attorney-General, containing inquiries on the subject of the powers and duties of the President in his relations to the present Congress, and relating to its legality when so many States are excluded from representation, and requesting the Attorney-General to answer in writing; and that the questions sent to the Ledger are the same in substance as those seen on the Attorney General's table Another person in office told him that the President had been conversing with an intimate friend in the executive mansion, at the same time, on the same questions on the same subject. The statement of Mr. Flint was subject to a long and searching examination, in Washington, by a person authorized to speak for the paper, and it resulted in several material modifications of his original statement. Mr. Flint now says that "the person in office" told him that another person had told the other person in office "that he the other person" said he had seen the paper, and that his informant about the alleged conversation in the White House, between the President and an "intimate friend," said that the "intimate friend" had told another friend who had told still another person, and that this fourth person had related the conversation to him, Mr. Flint. It will thus be seen that the "official" character of these informants of Mr. Flint is of but little consequence, as they were not relating what came under their "official" notice, but merely what they had heard other people say. It is but fair to Mr. Flint to say that he claims to have had a firm conviction of the truthfulness, accuracy and good faith of his informants, and that he still claims to have the same conviction: Thus far we have spoken of these alleged informants "in office," as though they have real existence, and as if Mr. Flint had acted in good faith; but we now come to a feature of the transaction that shakes that theory to the foundation. Mr. Flint now admits that, having no more precise information than the foregoing general and roundabout reports, and that not having a single note of the alleged questions in writing, he sat down at his table and framed in his own words what he supposed to be the questions, professing to give the text literally with accompanying references to articles and sections of the Constitution, and sent this off for publication as the specified language of inquiries submitted to the Attorney General by the President on one of the most serious topics that it is possible just now to raise. This is his own admission. It is difficult to find proper terms by which to characterize and condemn so unscrupulous a transaction, and we leave it to all those who read it to apply such as they deem most fitting to such a subject. In view of these admissions by the man to whom the story of the questions is thus ultimately traced, we confess to having serious doubts as to how far his statement about having any information at all can be trusted, and as to whether he must not be considered as having manufactured the whole story from beginning to end.

STEEDMAN ON NEGRO SUFFRAGE. Gen. Steedman's national reputation dates from the beginning of his fault-finding mission to procure testimony against the Freedmen's Bureau and its officers. Here is an extract from a speech made by him at Toledo, Ohio, in May, 1865, which contrasts strangely with his recent course:

> There is one point which strikes me as necessary to be well understood and recognized as a preliminary to reconstruction—and that is the right of the gallant colored heroes of the war to have a voice and a vote in the work. The plans of the President and his Cabinet are not yet fully developed to the public, but if I know anything of Andrew Johnson, he will never consent that the man who has borne arms in defence of the Government—though as black as black can be—shall be degraded by a refusal of civil rights. You all know I never was a great lover of the negro; but I must not be unwilling to do him justice, and the more particularly should I avoid injustice, when I know the services he has rendered us. After trusting him on the picket line—after employing him as a scout—after deeming him fit to bear arms for our defense on the battle field, shall we refuse him the privilege of the ballot-box? and if so, in God's name, why? Depend upon it if you discard their aid by such refusal, you can never establish Federal authority without the constant presence of Federal bayonets.

He used yet stronger language in speaking of the right of the Government to fix terms upon which the Rebel States should be admitted:

> I want the Government never to let go its grasp until it can take the whole monster into its own hands beyond all doubt—and when our authority becomes established—when State Governments are re-organized—when representatives are sent to Congress and to the Senate under the advice of loyal and good men, do not forget to give the black man the right of pronouncing an opinion as to how far the elective franchise should be given to those who have borne arms against the Government.

Since that day the loyalty of the freedmen has not wavered, but how great is the change in General Steedman and Andrew Johnson!

A bare-footed, bare-headed, bare-legged little girl of five years has been arraigned before the Police Court of New York (a Christian [?] city) for the terrible crime of picking up forty cents worth of loose cotton. The miserable thief was handed over by the humane magistrate to the officers of justice, and by them promptly incarcerated within the gloomy cells designed for such terrible offenders. The owner of the cotton has probably swindled government or somebody else out of a hundred thousand or so, and is worshipped as a great man in "good society."

CARLETON'S BOOK—"FOUR YEARS OF FIGHTING." We have received from Messrs Ticknor & Fields this valuable work, by C. C. Coffin, the "Carleton" correspondent of the Boston Journal. The writer commenced his duties, as an observer of events on the 11th of June, 1861, continuing until the last rebel laid down his arms. He had unequaled privileges for observing the great events of the times. He was eye witness of twenty-one different battles. Officers, soldiers and civilians, alike, accepted his letters as trustworthy and as best delineating the scenes and events of the various campaigns.

This volume is wholly historic. In addition to his descriptions of battles, incidents of marches, the camp and hospital, there is a chapter of exceeding interest, giving the secret history of the rebel cotton loan in England and France from original documents which were obtained in Richmond.

The publishers believe that no book has been offered to the public surpassing this in interest—a volume which will always have a place in American literature and American history.

Mr. Wellington, the gentlemanly agent of Messrs. Ticknor & Fields, was in the South during the greater part of the war, and is still suffering from its effects, having been severely wounded and injured.

Our readers will do well to look at this book, as it is no catch penny concern, but a reliable and authentic statement of facts.

TROTTING A FAST HORSE THROUGH THE CUSTOMS. At Portland on Tuesday last, before the U. S. District Court an information was filed against a trotting mare, "Nelly W. Locke," that had been imported from Canada to contend for a purse of $500 at the Portland Horse Fair—the said mare having been entered at the U. S. Customs as valued at only $85, when it was in evidence that $900 in gold had been paid for her. The owner or "claimant" of the mare is Woodbury W. Locke of Portsmouth. The Court appointed appraisers, and ordered the claimant to give bonds in double the amount of value to abide the event of a jury trial in December. We learn these facts from the Court record of the Press.

RESTOCKING OUR RIVERS WITH FISH.—Mr. N. W. Foster of East Machias is devoting a good deal of time, attention and labor to the work of restocking our New England rivers with the valuable fish which have been driven from them by the numerous dams erected within the past forty or fifty years. He has demonstrated that it can easily be done, by providing sufficient fishways in the dams, and then depositing the spawn of the fish in the upper waters at the proper season. The young fish will next year return to their *native* homes if they can get there, for the purpose of depositing their own spawn. Thus, as he believes, an immense amount may annually be added or restored to the resources of the State. He has proved the truth of his theory by stocking ponds and streams in the eastern part of the State with salmon, shad, alewives, trout, &c. He has recently been on the Merrimac river, where there are eighteen dams, giving his advice as to the construction of fishways there, as we see by the Machias Union. If there is a good way constructed through a dam, the fish will find it, and will go over, any number of them till it arrives at proper spawning ground.

AN ADVANCE IN DENTISTRY. The Brunswick telegraph says; A friend of ours has a pup. His wife, a few nights since, removed a set of false teeth upon retiring.—In the morning the set was nowhere to be found, and they were not discovered until noon, when the pup was proven to be the party guilty of their removal; but most singular to relate, the little rascal had fitted them to his own mouth, and could masticate splendidly with them. P. S. It is proper to add that this astonishing case of dentistry occurred just after the Maine dentists had been in session here.

FIRE AND LOSS OF LIFE. Shortly before midnight a fire broke out in one of a row of wooden tenements between Fore and Commercial near Franklin, owned by Messrs. Rumery & Burnham, and occupied by six families. So rapid was the flames that the occupants had time to save but little of their effects. Some of them saved only the clothes they stood in. A row of tenement houses situated close by was also partially destroyed. The names of the heads of families occupying the building destroyed are Thos. Welch, John S. Cooper, Edw. Slavin, John Gannon, Michael Lannegan and Mrs. Devine.

Mr. Lannegan was aroused by hearing the crackling of the flames under the floor of his dwelling, and he rose and ran to his daughter's room, which was full of smoke, and roused her just in time to save her life, and she gave the alarm to the residents of the other houses.

Slavin and his son Edward, aged 6 years, perished in the flames and were no doubt suffocated by the smoke. The body of the lad was found in the ruins this morning; and from the posture in which it lay, death had overtaken the boy in his bed. The body of the father had not been found when we left the place.

The fire is supposed to have been the incendiary work of Mark Sullivan, a notorious scamp, who has seen the inside of prison walls a good many times. He is known to have threatened fire, and one of the Slavin boys says he saw him prowling about the house at about half past 11 o'clock. He was arrested this morning and locked up.

P. S. Since the above was written we learn that the body of the elder Slavin has been found in the ruins. Coroner Hall will hold an inquest.—[Portland Star.

A DIFFERENCE IN JUDGMENT. The Machias Union says that in the October term of the Supreme Court in 1865, two cases were tried before the second Jury, in each of which B. W. Tyler, Esq., of Alexander, one of the Jury, was alone of the twelve for the defendants, consequently disagreements were reported. In the present term the same causes were tried before the *second* Jury (Mr. Tyler, however, was not one, and of course none of last year's panel are on this year's) and *both* were decided in favor of the defendants! A striking reversion of judgment, and one no doubt fully justified by the evidence.

From Harper's Weekly, Oct. 13.

THE INTERNATIONAL BUSINESS COLLEGE ASSOCIATION.

We present in this issue the portraits of the members of BRYANT, STRATTON & CO.'S International Business College Convention, recently assembled in Convention at Cleveland, Ohio. This association of Colleges, as will be seen in the engraving, embraces nearly all the leading cities in the United States and Canada. The purpose of the Association is to combine the best talent in the country in perfecting and putting in practice a system of business education which shall be commensurate with the public demands. The enterprise was inaugurated by Messrs. BRYANT & STRATTON, in the city of Cleveland, in 1853, and has met with success altogether unprecedented. In fact, through the individual institution, and the admirable text-books which these gentlemen have produced, the sphere and limits of a purely business education have been as clearly defined as those of law, medical, and theological schools; and it is becoming almost as necessary that a young man, in fitting himself for business, should graduate at one of these Colleges, as that a contestant for professional honors and success should take a preliminary course in an institution specially devoted to the studies incidental to such profession.

The great interest which at present this subject is creating in the public mind renders this recognition of the leading enterprise eminently proper.

To the Debilitated and the Decrepid.

For general debility and exhaustion of the powers of nature, whether occasioned by sickness, fast living, constitutional decay, old age, or any other physical or mental cause, the one thing needful and indispensable is HOSTETTER'S CELEBRATED STOMACH BITTERS. When the fire of life seem to be absolutely dying out in the system, and the mind, sympathizing with the body, is reduced almost to a state of imbecility, this mighty Restorative seems, as it were, to lift the sufferer out of the Slough of Despond and recruit and reinvigorate both the frame and the intellect. An old farmer in the Valley of the Monongahela writes thus to Dr. Hostetter: "I can compare the operation of your Bitters upon me to nothing but the effect of a rain after a long dry spell in the fall of the year. The rain falling on the meadows starts the second crop of grass, and your wholesome medicine seems to have started a second crop of life and spirits in me." And this is truly the effect of this grateful and powerful preparation. Ladies of weak constitutions, or whose strength has been impaired by sickness or age, find it a most efficacious and delightful Tonic, and it is administered with great success in marasmus or wasting of the flesh, to young children. In fact, it is a much safer and surer cordial for the nursery than anything advertised specially for that purpose. oct 18—sn3taw2w &w2w

This great COAL OIL BURNER can be used on ANY LAMP, and dispenses entirely with *Glass Chimneys*, and is free from smoke or smell.

This Burner is entirely different from any NO CHIMNEY BURNER ever introduced.

It does not depend directly upon the Wick for its light, but burns the smoke produced therefrom, *and burns less Oil than Chimney Lamps*: and produces a more brilliant light than any Burner in the market.

State, County and Town Rights, for sale.

☞AGENTS WANTED.

This Burner can be seen at J. H. CLERGUE'S, 115 and 117 Exchange Street, Bangor.

sept 26 sn J. H. CLERGUE.

An Effectual Worm Medicine

BROWN'S VERMIFUGE COMFITS,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child.—This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

CURTIS & BROWN, Proprietors, New York.—Sold by all Dealers in Medicines, at 25 cts a box.

Startling Announcement!

Save Your Hair and Preserve Your Beauty.

Why should you lose them when *Peases' Vegetable Hair Renewer* can be applied and save both?—If your hair is faded and gray it will restore it perfectly natural. It will prevent its falling off and promote a new growth. It cleanses the head, cures diseases of the scalp. It cures extreme cases of sick head-ache. It is the best coloring and dressing combined in the land. No dirt, no smell of sulphur, which is so offensive to yourself and friends. Ask for Peases', and take no other. Sole agency at the *Bangor Botanic Drug Store*. The trade supplied at lowest terms. june 20—sn 6m

THE

BEST COOKING STOVE,

IN THE MARKET,

"PEERLESS," FOR COAL OR WOOD.

THE "PEERLESS" has all the advantages of the popular stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market.

It is the "PEERLESS," because it is superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting and Beauty.*

1st, ECONOMY. A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent. of fuel.*

2d, SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling.

3d, CLEANLINESS. No dust escapes while shaking or dumping the grate.

4th, BAKING. Its large oven, wherein all parts are of *equal* temperature, bakes as *evenly as a brick oven*, and that without turning the article. It bakes quickly. It will bake upon the oven rack quickly, evenly and well at the same time the oven bottom is fully employed in baking or roasting.

5th, ROASTING. A current of hot air constantly passing through the oven, so thoroughly ventilates it, that it *roasts as well as a tin kitchen.*

6th, BEAUTY. Made of the best iron, it will not crack. Well mounted, artistically designed and smoothly cast, it is the *most beautiful* as well as the *most serviceable* stove in the market.

Each stove is WARRANTED to be and to do all that is claimed for it

Loss of a Bark Belonging in Bath, and Five Seamen.

State Election in North Carolina.

NEWS FROM MEXICO.

WASHINGTON, Oct. 18.

The Collector of Customs at Fernandina. lorida, informs the Treasury Department at on the 6th inst. Thomas Fitzpatrick, 3d fficer; Chauncey Mason, steerage steward, nd John Campbell, Joseph House and John Deming, of the crew of the lost steamship Evening Star, had arrived at that port.—ome of these seamen were in almost a dying condition, but having received careful ttentions, they are recovering their health.

The Navy Department will soon issue an rder with regard to the navy uniform, hich is to be restored as it was before the to rebellion, with improvements, including a more artistic arrangement of the emems of the shoulder straps. During the ar, officers of the navy wore what is called e "service uniform", but the full dress is be resumed.

The Commissioner of the General Land ffice has received returns showing that at e Nebraska City office, 4337 acres of the ublic land were disposed of in September st, of which 2701 acres were taken under e homestead law, for actual settlement; the St. Cloud (Minnesota) office 2408 acres cre sold; for cash.

The ticket-holders in the Vincent & Butrfield Gift Concert enterprise are unable to btain information of the result of the drawing, which took place several weeks ago.—onsiderable money is invested in this afair. The members of the firm have left e city, and their office is closed here. No ne supposes there will be any distribution f prizes whatever.

PROVIDENCE, Oct. 18.

The Journal has information of the arval at Newport to-day of Capt Tarbox, of e bark Saml Tarbox of Bath, Me., and 9 en, who report the foundering of that vessel in lat. 33 30 N, long 73 20 W, on the 3d st.—also the loss of five of her crew. The rvivors were picked up by the brig J. M. iswell, Capt Leack, of Boston, from Pencola for Vigo, Spain, on the 5th, which nded them on Block Island on the 11th. The brig spoke, on the 4th inst, the ship ndusky of New York, from New York for ew Orleans, with loss of mainmast and all r topmasts.

e bark was an A½ vessel of 545 tons built Bath in 1860.

WILMINGTON, N. C., Oct. 18.

The election for State officers took place in is State to-day.

The following is the vote for Governor in is city.

Worth, Conservative, 218, Dockery 2.

One senator and two representatives, all onservatives, are elected to the legislature a nearly unanimous vote. Everything ssed off quietly.

HAVANA, Oct. 13.

A terrible hurricane commenced in the hamas on the 30th ult., and lasted two ys.

Almost half the town of Nassau was destroyed by the storm. Houses were blown wn, roofs carried away, and trees upoted. Trinity Church was demolished. e roof of the Marine Hospital was entirely blown off, and the Government House part of its roof. Vessels were driven hore and knocked to pieces, and wharves molished.

The neighborhood islands suffered in some gree.

A large number of vessels have been lost damaged.

This hurricane is this hurricane is the sevrest which has been experienced since 13.

Gen Castelman has arrived from St. Nazire en route to Vera Cruz. He has been pointed to take the place of Marshal Bazne.

A deputation of citizens of Matamoras ve arrived at the City of Mexico to beg Imperial Government to take possession the former city.

They assert that a large number of troops not necessary to accomplish this, as the ole population would rise in favor of the npire.

The Estalelte reports the capture of Apam 1200 Liberals.

MEMPHIS, Oct. 18.

An excursion train on the Memphis and arleston Railroad, when returning from a ournament, ran through a trestle work at rnsville this morning, demolishing two rs. About forty persons were injured—ly two seriously. The accident was caused breaking a truck.

BALTIMORE, Oct. 18.

The Legislative District Convention of the conditional Union Party was held here night, and 18 Representatives and three nators were nominated—the latter as fol.s—1st District, N W Randolph; 2d, C Fulton; 3d, W P Easton. All the nomes were instructed to vote for the re-electn of Hon John A J Creswell to the U S nate.

NEW YORK, Oct. 18.

It is said that Commodore Vanderbilt has rchased the St. Johns Park for a million llars whereon he will erect a depot for the udson river Railroad.

NEW YORK, Oct. 18.

There was a a fair attendance to-day, at e Hoboken races. The first race was a eaple chase—three miles 28 leaps. Zigzag s the favorite, against Gen. Williams and annie Craddock. Nannie led Williams, roughout, and won by a length, Zigzag ailing an eighth of a mile, and was beaten 0 yards, amidst immense dissatisfaction.—me, 7:30½.

In the second race, a mile dash, for two ar olds, Eclipse (filley) beat Red Wing a gth.

Third race, mile heats, for three year olds—Two to one was bet on Enchantress against ocal. The latter won both heats, running pped nearly throughout—Time, 1:48½, 48¼.

Fourth race, 1¼ miles dash, five to four as bet on Luther, against Ulrica. The latr beat Luther a length—Time, 2:0¼.

PHILADELPHIA, Oct. 18.

The steam-drum of the steamer Major eybold exploded to-day, while she was lyg at her wharf at Newcastle, Delaware. one were killed, but several persons were mewhat injured.

QUEBEC, Oct. 18.

In addition so the loss of property by the re, there will fall an immense loss on the tockholders of the local insurance companies, the stock of which has largely depreciated. Nearly all the English companies ave withdrawn since the fire. At a public meeting, the city government was denoucd for the criminal neglect and folly which d to so much loss of life and property.

QUEBEC, Oct. 18.

Another person died last night in the hospital from the injuries he received in the late terrible fire. Bread and provisions are being regularly distributed among the sufferers by Catholic priests and Sisters of Charity, who are working night and day.

There was a theatrical performance given last night in aid of those who have lost everything they possessed by the fire.

The weather is pleasant.

BOSTON, Oct. 18.

The Republicans of the Second District have nominated Oakes Ames for re-election to Congress.

George J Gray, the burglar, who attempted to shoot an officer at Chelsea Beach recently, was to-day sentenced to fifteen years in State prison.

PORTLAND, Oct. 18.

Two bodies, those of Mr. Slavin and his son nine years of age, were found to-day in the ruins of a tenement, house which was burned last night, they having perished in the flames.

A soldiers' monument was dedicated at Gorham, Maine, to-day, with appropriate ceremonies

Maj Gen Chamberlain, the Governor elect was the orator. The attendance was quite large and the ceremonies imposing. The monument was the gift of an old citizen, Tappan Robie, Esq.

BOSTON, Oct. 18.

A meeting of all the licenses in the United States of the Union Paper Collar Companies has been in session here this week, at which business of great importance to the trade was transacted.

Twenty companies, and capital to the amount of ten millions was represented.

Hon. Charles A Shaw, Mayor of Biddeford, Me., has been chosen managing director.

NEW HAVEN, Oct. 18.

The Methodists of New Haven held their Centennial Celebration to-day. In the afternoon there was a great children's meeting, at which 3000 were present. Addresses were made by several gentlemen. In the evening there was a great gathering, at which Gov. Hawley presided. Addresses were made by the Governor, Rev. Dr. Sewall and others. Elias Gilbert, the oldest Methodist in New Haven, was present.

Nathaniel Perkins vs. Samuel Kimball.—Trespass on part of Lot 22 in Hermon. Action to establish boundary lines.

F. A. Wilson. Mace.

ARREST OF A DESPERATE CHARACTER.—From officer Walker we gather the following particulars of the arrest of a thief named Henry Hanley, a Canadian:

It seems the officer had been in search of Hanley since August, he having stolen previous to that time from several dwelling houses in this city.

On Sunday last, officer Walker learned that Hanley was in Rockland, and at once wrote to Sheriff Laughton of that city the facts, and requested him to arrest the thief, saying that he would be down on Wednesday's boat and bring him to this city for examination. He also cautioned the Sheriff to be wary as the fellow was known as a desperado.

Laughton, on receipt of the letter, at once proceeded to arrest Hanley, and succeeded in doing so after a hard fight.

On the way to the jail, however, the fellow broke away from the Sheriff's grasp and run. As he was likely to escape, the officer fired at him four times, the last shot taking effect in his hip and bringing him down.

Officer Walker returned from Rockland to-day with the wounded prisoner, and also with the goods stolen. Hanley was brought before the Police Court this a. m., and for want of bail in the sum of $500, committed until to-morrow at three o'clock.—[Times.

—It is understood that Col. Roberts has designated has appointed as follows:

Percy Knowles, Inspector,
D. M. Howord, Weigher and Gauger,
A. P. Bradbury, Aid to the Revenue,
P. T. Jones, Lincoln, do.

All but one thorough bred peace men.

MEETING OF MECHANICS. We learn that there will be a special meeting of the Mechanics' Association, this evening, at their hall in Granite Block,—and all members are earnestly invited to attend. The object of the meeting, as we understand, is to consult upon the best means of reviving an interest in the Association, and restoring it to its former activity and usefulness, and specially to take measures for raising the proposed Library Fund of $5000 or more, to which we alluded the other day. To make the Association permanently useful and to revive or create an interest on the part of members and their families, it is indispensable that the Library should be renovated, increased and kept up to the growing demands and intelligence of the times. The interest on a moderate fund will do this; and we have no doubt such a fund will easily be raised when the move is once vigorously made. As before stated, one of the wealthy and generous friends of the Association has intimated a willingness to contribute one fifth of the sum named. It ought to be an easy matter to obtain the balance.

—Three hundred swine, from 300 to 600 lbs. each in weight, have been raised at the Portland Alms House this season.

—The Grand Division S. of T. holds its next Quarterly Meeting at Richmond on the Kennebec, next week, commencing on Tuesday afternoon. The session is expected to be a very important one, and largely attended. Delegates from this section will reach Richmond in season by taking the morning train on Tuesday. Free return tickets will be furnished on all railroads, and by steamer City of Richmond from Rockland to Portland.

—The Portland papers announce the death of Capt. Daniel Hood one of the oldest shipmasters of that place—at the age of 74.

—The Lewiston Journal men have set up their porringer, and already the editors' cup appears to be running o'er. Think of "golden *butter*" being deposited in a printer's porringer, when it could be sold for forty pence in the market. The people of Androscoggin must be full of the milk of cows, and *also* of human kindness. Moses' soul will be stirred within him, verily, and *his* porringer will be further advanced.

—The Publishers' Convention, late in session at Augusta, resolved to advocate and insist upon strictly advance payment for newspaper subscriptions.

—The disbursements of the city of Lewiston for the current financial year will probably aggregate about $225,000. $154,000 was raised by taxation.

—The Belfast Age learns that the honorary rank of Captain and Major by brevet has been conferred upon the late Lieut. Dickerson of that city, for gallant services during the war, upon the recommendation of the officers of his regiment, the 5th U. S. Cavalry, endorsed by Generals Stoneman and Thomas.

—George N. Berry has been appointed collector for the fifth district of Maine.—[Spl to Boston Adv.

PORTLAND AND KENNEBEC RAILROAD. We see by the Farmer that this well managed road has been doing an excellent business during the past season,—as our own Maine Central has, we believe, under the vigorous administration of Mr. Noyes. The number of passengers on the P. & K. road during the three months ending Sept. 30th averaged *more than a thousand a day*. During the month of July it was 27,677, and in August, 33,543; the accounts for September not being fully made up, Mr. Clapp, General Ticket Agent of the company, has estimated the number at 30,000. August and September are the months in which the greatest number of passengers are carried of any two months in the year. The number of tons of merchandise transported by the road in May of the present year, was 11,831; in June, 12,370; in July, 10,046, and in August, 12,791. The number of tons transported the same months last year, was 29,366, being an increase in the same months this year of 17,652 tons. Heavy trains of cattle are now beginning to be transported, and the amount of tonnage for the coming two fall months, will probably reach a much higher figure than that for any of the above months.

BREVET PROMOTIONS. Colonel John D. Rust, 8th Maine Volunteers, Brevet Brigadier General; Col. Clark S. Edwards, 5th Maine Volunteers, Brevet Brigadier General; Col. Frs. Heath, 19th Maine Volunteers, Brevet Brigadier General; Col. Isaac Dyer, 15th Maine Volunteers, Brevet Brigadier General; Lt. Col. Benj. B. Murray, 15th Maine Volunteers, Brevet Brigadier General.

FALL ARRANGEMENT, 1866.

INSIDE LINE FOR Portland and Boston.

THE Steamer LADY LANG, Capt A. J. WHITMORE, will, until further notice, leave Bangor every *Monday, Wednesday*, and *Friday* morning, at six o'clock, touching at all the usual landings on the River and Bay (except Searsport), arriving in Portland in time to connect with the Steamers of the Portland Steam Packet Co for Boston same night; or tickets are sold on the "Lady Lang" that are good on either the Boston and Maine or Eastern R. Road, on the first train after the arrival at Portland.

RETURNING,

Will leave Portland same evenings at nine o'clock, or on the arrival of the Cars from Boston, touching as above.

Fare from Bangor, Hampden, Winterport and Bucksport, to Boston, by Rail Road from Portland, $4.50. From Bangor, Hampden, Winterport and Bucksport, to Boston, by steamer from Portland, $4.00. From Bangor, Hampden, Winterport and Bucksport, to Portland, $2.50.

MEALS EXTRA.

Bangor, Oct. 15, 1866. sn J. O. KENDRICK, Agent.

THE ONLY REMEDY KNOWN FOR
THE ONLY REMEDY KNOWN FOR
THE ONLY REMEDY KNOWN FOR

DIABETES,

STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS, OR MILKY DISCHARGES AFTER URINATING.

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS CATARRH OF THE BLADDER.

STRANGUARY AND BURNING OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips. A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

rritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

STROUDSBURG, Pa., Jan 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me that there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,

MRS. MARGILL C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides and at times accompanied by sharp lancinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANTILLE, Pa., June, 1862.—*Dr. William H. Gregg*—*Dear Sir*:—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H Gregg & Co.—Gents*:—I freely give you liberty to make use of the following certificate of the value of the Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder*. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For,*" said he, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced to use the Constitution Water and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BEUSCHOTEN.

WEATHERSFIELD, Conn., March 2, 1863.—*Dr. W. H. Gregg.—Dear Sir*:—Having seen your advertisement of "Constitution Water," recommended for Inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it. I feel that it is all and more than you recommended it to be. May the blessing of God ever attend you in your labors of love.

Yours truly, LEONARD S. BIGLOW.

The Midnight Train.

BY REV. J. N. TARBOX.

As I lay awake in the night,
And heard the pattering rain,
Faintly I caught the rumbling sound
Of the coming midnight train.

The world was murky and still,
The air was loaded with damp;
And on the folds of the mist it came—
The noise of this iron tramp.

Plunging through darkness and fog;
Screaming its signals before;
Searching the night with its eye of flame,
And filling the earth with its roar.

I knew all the track, and could tell
By the sinking and swell of the sound,
When it darted through woods, or toiled up a grade,
Or leaped o'er a bridge at a bound.

Now the sound floated free on the air;
Now it died round the curve of a hill;
Now lost to the ear in the deep rocky pass,
But the mad thing was rushing on still.

Plunging through blackness and mist;
Sending wild 'larums before;
Howling like demon of darkness let loose
From Acheron's fiery shore.

And now all the windings are passed,
And it comes on to the plain,
Shaking the earth as it tears along
Through midnight blackness and rain.

Oh that some forest chief,
From his ancient woodland nest,
Might peer through the night, and catch the wild sight,
Of this monster troubling his rest.

Nearer and nearer it comes—
Louder the crash and the roar,
Bearing its precious load of life,
Two hundred souls or more.

Many their errands be,—
Some journey of traffic and gain,
Some go to the gloomy chambers of death,
And some to the bridal train.

Here are eyes heavy with sleep,
Here bright with the light of love,
In joy and tears, with hopes, with fears,
On through the darkness they move.

And now it goes by at a leap,
Wild the weird flashes it throws!
Out of thick darkness it comes in its flight,
And into thick darkness it goes.

Plunging through blackness and fog,
Sending loud signals before,
Searching the night with its eye of flame,
And filling the earth with its roar.

Pearl-Fishing in Ceylon.

At ten o'clock in the evening a gun was fired at Arippo. It was a signal that the boat might start; and setting a sail to catch the land breeze, then fairly on its way for the sea, we started. I had consented to form one of the ten of a boat's crew, whose duty consisted in managing the boat and looking after the divers, and our first excursion out, Senor Manos, who had commanded the brig, was our pilot.

We reached our station, twenty miles distant, a little before sunrise, and preparations were immediately commenced for business. The divers divested themselves of all clothing except a small piece of calico about the loins, and to belt around the waist each fastened a small net to hold the oysters. Each had a piece of iron weighing about ten pounds, to which was fastened a small line with a loop, in which a foot could be inserted. These weights were to enable them to descend with greater rapidity to the bottom, for as they could only remain under water from one minute and a half to two minutes, it was necessary that no time should be lost on the way down.

One end of the small line attached to the weight was retained in the boat to enable us to recover the weight after the diver had reached the bottom, and withdrawn his foot from the loop.

Although there were ten divers in each boat, only five went over at a time. This enabled each to have a rest, and still kept the work constantly going on.

Each man, before going over, had placed around his body, under his arms, a line by which he could be pulled to the surface, the end of the line being held by one of the crew in the boat, and as an additional precaution against danger, a line was hanging from the stern of the boat, and sunk with a weight to the bottom.

With a weight in one hand, and firmly grasping the noose with the other, five of our divers went over the side, and rapidly disappeared below, while those in the boats saw that the lines attached to their bodies ran out clear, and stood ready to pull them up should the signal be given for us to do so.

This was the first work of the kind I had ever seen performed, and the minute and a half or more in which we waited for the shaking of the lines, which was the signal for us to haul up, seemed to me a period of nearly ten minutes.

All came up within a few seconds of each other, and each had not less than one hundred oysters in his net. The diver attached to the line I was holding was the first to make an appearance, and required much more force in pulling him up than what I thought was necessary; but as he reached the surface the reason of this was immediately seen. He was bearing in his hand a mass of oysters adhering together, which he had succeeded in detatching from a rock with his knife. The mass could not have weighed less than forty pounds.

The other five divers immediately went down, and in this way the work was carried on until noon, the divers having gone down about forty times each since the time they commenced in the morning. The sea breeze had then commenced blowing, and we started for the shore.

Thus far we had been fortunate; and yet there was a possibility that in the many bushels of oysters we had secured there might not be a pearl of the value of one shilling. But with this possibility there was another—the cargo we had procured might be worth five or ten thousand pounds.

On reaching the shore the oysters were taken from the boat, put into a pit, then covered over with matting and some earth, there to die and decompose. The shells would then be open, when they would be picked over, and the pearls, if they contained any, would be extracted.—*London Leisure Hour.*

A CONSCIENTIOUS DOG. My father had a dog of the spaniel breed, whose name was Ponto. Now Ponto, though decidedly 'waggish' in one point, had given evidence of becoming more religious than many of his canine neighbors. True, he would never turn the other cheek, and consequently while he had a good character with the peace society he was scouted by the non-residents. But Ponto was always regular at church, and in one instance at least gave evidence that he went there with an idea that honesty and religion had some connection with each other. He was safe enough in this notion, for a more honest dog never barked. Ponto always walked into the church with the family, though he invariably took his seat on the lower stairs of the sacred desk, and none but the oldest in the congregation remembered when his seat was vacant. I ought to have remarked sooner that Ponto had but one enemy in the wide world, who was the deacon of the church, and our next neighbor. I forgot the cause—perhaps some slander against Ponto in the days of puppyhood, when it must be confessed that he was too much addicted to fun to comport with a deacon's idea of propriety. Certain it is, Ponto growled at nobody but Deacon Drury, and the Deacon threw a stone at nothing so furiously as at Ponto. If either exemplified the golden rule towards the other, it was Ponto.

So things stood at a certain time when the good pastor was called away for a long journey. But Parson [illegible] the family all went to church on the following Sabbath, and none with a longer [illegible] cious step than Ponto. [illegible] was taken; and when the congregation rose for the early morning prayer, Ponto rose with the rest—as he had always done—and with closed eyes and open ears stood waiting for the first words of supplication. To the utter astonishment of no one but Ponto, the word came in the voice of his old enemy, the pious Deacon. If the Bible had fallen on Ponto's tail, he could not have looked for the cause with a more rapid glance than he cast upwards at the pulpit.

He fixed his eyes on the face of the Deacon, as if to be sure of the sacrilege, and then with a look of pious horror I shall never forget, and a step as fast as the place would allow, he passed out of the house and took a by-path across the fields. From that day forth as long as Ponto lived he could never be flattered or exhorted to enter the church door again; and whenever, from necessity, he passed it on week days, it was a look that said, 'If Deacon Drury prays, the church may count Ponto among backsliders.'

NOTICE.

ANY persons to whom I delivered Coal last year, and on whom I have not been able to call this year, can now leave their orders at my place of business,

No. 8 Kenduskeag Bridge,

And they shall be filled on the same terms as last year. And any others who want a FIRST QUALITY COAL for

FURNACE, STOVE, GRATE or RANGE,

Will do well to call upon me before giving their orders. HENRY A. BUTLER.

Bangor, August 10, 1866.—tf.

The New Bounty Law.

SAVE YOUR MONEY!

SOLDIERS AND THEIR HEIRS can get the New Bounty, given by an Act of Congress of July 28, 1866, by calling on the subscriber, a United States Special Agent, cheaper than at any other office in the State.

Daniel Sanborn,
U. S. AGENT.

aug 1—tf

STANDARD TIME!

I BEG LEAVE TO INFORM the citizens of Bangor and vicinity that I have purchased at great expense, a *REGULATOR*, that has no superior in the country as an

Accurate Time-Keeper.

I have also just received a superior stock of English, Swiss and American WATCHES, in Gold and Silver Cases,

Which will be sold at the lowest prices.

Every Watch will be warranted to give perfect satisfaction. Clocks and Fine Gold Jewelry.

☞ Thanking the public for their liberal patronage during the past five years, I would say that all Watches left in my care, will be carefully repaired and warranted. W. F. WEEKS,

In Chas. Hight's Book Store,
aug 27—tf *NO. 3 SMITH'S BLOCK.*

Ritchie's Liquid Compass!

THE Ritchie Compass which has been the standard Compass in the navy for upwards of four years, and also in extensive use in the merchant service, should be used on every class of vessels where a compass is to be depended on. It combines all the qualities of a perfect instrument. To extreme sensitiveness and perfect steadiness is added a strength and durability which prevents them from getting out of order like other compasses. The reason for this is apparent to any one upon examination. A single trial of this compass has always resulted in its adoption and the rejection of every other kind.

EVERY COMPASS WARRANTED.

CONSTITUTION

LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

L

SCROFULA,

STRUMA, GLANDULAR SWELLINGS,
ULCERATION, KING'S EVIL,
ERYSIPELAS, SALT RHEUM

This taint (HEREDITARY and ACQUIRED,) filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of twenty or thirty years standing have been cured.

I

NERVOUSNESS.

Nervous Debility, Shattered Nerves,
St. Vitus' Dance, Loss of Power,
Confusion of Thoughts, Epilepsy.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than in promise.

MERCURIAL DISEASES.

Salivation, Rotting of Bones,
Bad Complexion, Aches in Bones,
Feeling of Weakness, Depression of Spirits.

F

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP

Eradicates, root and branch, all Eruptive Diseases, of the Skin like

ULCERS, PIMPLES, BLOTCHES,

and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

E

CONSTITUTION LIFE SYRUP

CURES ALL SWELLING OF THE GLANDS, Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

S

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsey of the limbs, abdomen, and in the female, Dropsey of the ovaries and womb, generally accompanied with inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries. Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Y

Epileptic Fits, Sympathetic or Organic Disease of the Heart, as palpitation, Disease of the Valves producing a grating or filing sound, Dropsey of the Heart Case and all the affections of this important organ (persons suffering from any acute pain in the region of the heart), will be greatly relieved by Constitution Life Syrup.

BROKEN DOWN AND DELICATE CONSTITUTIONS SUFFERING FROM INDISPOSITION TO EXERTION, PAIN IN THE BACK, LOSS OF MEMORY, FOREBODINGS, HORROR OF CALAMITY, FEAR OF DISEASE, DIMNESS OF VISION, DRY, HOT SKIN AND EXTREMITIES, WANT OF SLEEP, RESTLESSNESS, PALE, HAGGARD COUNTENANCE, AND LASSITUDE OF THE MUSCULAR SYSTEM, all require the aid of the CONSTITUTION LIFE SYRUP.

R

FOR ALL FORMS OF

Ulcerative Diseases,

Either of the NOSE, THROAT, TONGUE, SPINE, FOREHEAD or SCALP, no remedy has ever proved its equal.

MOTH PATCHES upon the female face depending upon the diseased action of the liver, are very unpleasant to the young wife and mother. A few bottles of CONSTITUTION LIFE SYRUP, will correct the secretion, and remove the deposit which is directly under the skin.

In the diseases of the Liver, giving rise to Languor, Dizziness, Indigestion, Weak Stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of CONSTITUTION LIFE SYRUP.

U

☞ AS A GENERAL BLOOD PURIFYING AGENT THE LIFE SYRUP STANDS UNRIVALLED BY ANY PREPARATION IN THE WORLD.

THE RICH AND POOR,

are liable to the same diseases. Nature and Science has made the CONSTITUTION LIFE SYRUP for the benefit of all.

PURE BLOOD

Produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result.

Price $1 25 per bottle; one half dozen for $7.

FIRST MORTGAGE BONDS

OF THE

CENTRAL Pacific R. R. Co.

OF CALIFORNIA.

Interest at the rate of Six per Cent per annum, payable Semi-Annually, on the First days of January and July.

Principal & Interest payable in U. S. Gold Coin in the City of New York.

Amount of Issue, $7,336,000.

In Coupon Bonds of $1,000 each.

The Bonds have Thirty Years to run, and are secured by a First Mortgage, constituting an absolute prior lien on that portion of the Road, Equipments, Franchises, and Entire Property of the Central Pacific Railroad Company, located in the State of California, and extending from Sacramento City to the California State Line, forming a part of the GREAT PACIFIC RAILROAD ROUTE, adopted and aided by the UNITED STATES GOVERNMENT.

The amount of these First Mortgage Bonds to be issued per mile is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is *declared by Act of Congress to constitute a lien prior and superior to that of the United States Government.*

The aid received from the Government (in amount equal to this First Mortgage) is economically and judiciously applied to the construction and equipment of the Road, together with nearly $7,000,000 received from subscriptions and other [illegible] First Mortgage therefore an[illegible] to but about 35 per cent. of the [illegible] cost and value of the Property [illegible] it covers.

The road is now completed, equipped and running from Sacramento City to Alta, a distance of 73 miles, and the earnings for the three months ending August 1st were as follows, viz.:

May, 1866..................$65,115.83
June " 67,429.78
July " 85,000.00

IN GOLD.

The earnings are steadily increasing, and are estimated at over $100,000 in Gold for the month of August—the official report for that month not having been received at this date.

The construction of the road is going vigorously forward,—24 miles additional being nearly ready for the cars,—and it will probably be in full operation to the California State Line—156 miles from Sacramento City—during the summer of 1867, when its earnings must be very large, as the entire trade of Nevada, and a large proportion of that of Utah, Idaho and Montana must pass over its line. It has been shown by reliable statistics that in 1863 over $13,000,000 in Gold was paid for freighting goods from California to Nevada alone.

This part of the Great Pacific Railroad Route is destined to be one of the most profitable lines of railroad in the world, and its First Mortgage Bonds are among the best secured and most desirable investments ever offered.

Over $1,000,000 has already been expended in grading beyond the point to which the road is now running, and the iron is bought and paid for sufficient to lay the track the entire distance to the State Line.

The Road has been completed and equipped thus far without the sale of a single dollar of its First Mortgage Bonds, and they are now offered to the public for the first time, after the earnings of the Road have reached the sum of $100,000 per month in Gold, only about 25 per cent. of which is required for operating expenses.

The Bonds are offered at 95 per cent. and accrued interest from July 1st, in Currency. Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

For freight or passage, apply to
EMERY & FOX,
Brown's Wharf, Portland.
J. F. AMES,
Pier 38 East River.

Portland, May 29, 1866.

Special Notice

To Soldiers and Seamen!!

The Law Has Passed!

Bounties Equalized.

Justice Done the Early Soldiers and Seamen of the War, their Widows and Heirs.

NOTICE has been sent me from Washington, that the Law equalizing the bounty to Soldiers and Seaman was passed Saturday last, July 28th, by Congress.

I am now authorized and prepared to collect this Bounty for every Soldier and Seaman entitled, also for their Widows and Heirs.

☞ Application made personally at my office, or by mail,—the discharge of the Soldier or Seaman should be handed in—as it must be forwarded with the application.

☞ All applications must be made signed, witnessed and sworn to, AFTER THE PASSAGE OF THIS LAW. Many soldiers have been induced to sign papers before the law passed. This practice is irregular, fraudulent and void, and papers in all such cases must be made over.

☞ **Soldiers and Seamen**

C. P. BROWN,
July 30 *BANGOR.*

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

No. 78 State Street, (opposite Kilby street,) Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS; *every one* of which was decided in *his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse, CHAS. MASON,"
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Maine Central Railroad.

Spring & Summer Arrangement.

ON and after Monday June 4th, current, trains will leave Bangor for Portland and intermediate stations at 7.30 A. M., daily, Sundays excepted, connecting at Portland with train for Boston, and the freight accommodation train at 2.15 P. M. for Waterville.

Returning, trains are due at Bangor from Portland at 8.00 P. M., and freight accommodation from Waterville, at 10.40 A. M.

Through tickets are sold at all stations for Boston as heretofore. EDWIN NOYES,
June 4, 1866. Supt.

PORTLAND & KENNEBEC RAILROAD.

"Lower Kennebec Route," *via* Augusta.

SUMMER ARRANGEMENT

TRAINS leave Skowhegan, daily, for Augusta, Portland and Boston, at 9.00 A. M., connecting at Kendall's Mills with train on Maine Central R. R., leaving Bangor at 7.30 A. M.

Returning—Passenger train leaves Portland at 1.00 P. M., connecting with trains leaving Boston at 7.30 A. M.; also at Kendall's Mills with train for BANGOR at 5.40 P. M.

Passengers *from* Bangor, Newport, &c., desirous of going to Portland or Boston by this road can purchase Tickets to Kendall's Mills, and after taking the cars on this line the through passage will be made the same as by the other route; also from Portland and Boston *to* Bangor and all other stations East of Kendall's Mills.

Freight Train leaves Skowhegan, daily, at 4.30 A. M., Kendall's Mills at 5.55 A. M., for Portland, and through to Boston without change of cars.

Returning—Freight trains are due at Waterville at 3.25 A. M. and Kendall's Mills at 3.50 P. M.

With the Through Freight Trains, each way, between Portland and Skowhegan, a passenger car is attached for the accommodation of travellers.

CONNECTION TICKETS are sold between these central stations on each road, and baggage marked through.

Passengers by this route have ample time (10 minutes) to dine at a first class Eating House. Superior Monitor Cars are run with the through passenger trains, also smoking cars.

Augusta, April 28, 1866. W. HATCH, Supt.

Bangor, April 27, 1866.

Searsport House,

SEARSPORT, MAINE,

W. H. MATHEWS, - - - Proprietor.

The Proprietor having refitted and fitted up his Old Stand, is ready to attend to the wants of all who may favor him with their patronage, hoping to receive calls from all his old friends, as well as new.

The tables will be furnished with the best in the market, and every attention will be paid to the wants of his guests.

Searsport, October 4, 1866. 4wd

NATIONAL HOUSE,

Harlow St., Bangor, Maine,

A. R. GREENOUGH, - - - *Proprietor.*

This House is situated in the most business part of the City, and is now open to the travelling community.

The Proprietor hopes by strict and personal attention to receive a liberal share of patronage.

The tables will be furnished with the best the Market affords, and every attention paid to the wants of his guests.

There is attached to this House a good STABLE, with attentive Ostler. Charges moderate.

A. R. GREENOUGH.

Bangor, September 13, 1866.

NICHOLS HOUSE.

The undersigned having leased, for a long term, and thoroughly renovated and refitted the NICHOLS HOUSE (late "Dwinel House") in Bangor, has this day re-opened the same to the public accommodation.

This Hotel is centrally located, and in close proximity with the Boats and Cars.

The Proprietor has had a long experience in the "Parker House," of East Corinth, and the "Shaw House," of Newport, and flatters himself that to all patrons he will furnish an agreeable and comfortable home. Every effort and expense will be used to make this House as popular and attractive as any in this section of the State.

☞ Livery Stable connected with the House.

☞ Coaches in readiness for any business at all hours.

Stages leave this House daily for all parts of the country.

Lemuel Nichols.

Bangor, Feb. 23, 1866 (Times)

SNELL HOUSE.

The Subscriber has purchased the above House, and proposes to keep a

"First Class Hotel."

He has repaired the House, put down new carpets, made additions to the furniture, &c., &c. He has also secured the services of M. H. HUNTRESS as Clerk. And by the experience he has had in the business, he flatters himself that he can suit the people of Aroostook—*or any other man.*

GEO. PARKS, Proprietor.

Houlton, July 1, 1865. 156

BARRETT'S

THE

BEST VEGETABLE HAIR RESTORATIVE.

Is creating a sensation among the friends of those who have had their gray hair restored to its youthful color, and those whose bald heads have been covered with a luxuriant growth of hair. It so changes and improves their looks that intimate acquaintances scarcely recognize each other. For sale by druggists, of whom circulars can be obtained, containing testimony to prove what we have intimated.

Home Proof.

MR. BARRETT:

DEAR SIR,—Having used a bottle of your "VEGETABLE HAIR RESTORATIVE" after having tried many other kinds without success, I am happy to accord to it the *ne plus ultra* of ALL Hair Preparations in the world, and do myself sincerely and cheerfully recommend it to the public as such.

Yours, &c., JOHN FRANKLIN,
No. 6 Tremont street, Boston.

Testimony from Abroad.

Messrs. J. R. BARRETT & Co:

I was induced by a friend to make a trial of BARRETT'S VEGETABLE HAIR RESTORATIVE, and I am very much pleased with the effect it has had on my hair. I was nearly half gray, and now, before using one bottle, my head is freed from dandruff, and my hair has all the appearance of youth. I fully believe BARRETT'S to be the best Hair Preparation in the world. WM. HAMILTON.

FOUND.

WE have just found the place, in our own State to get our *STENCIL WORK* done.

H. W. FOLSOM, of West Waterville, cuts the best Stencil Name Plate you ever saw, in the Roman style letter, as plain and neat as the print in this paper, and will mark as plain. Any one can use them, as instructions go with each plate. Send him 75 cts., with your name, and he will forward you a Plate, with your name neatly cut in a plain or fancy style, as you may wish, with a brush, a bottle of warranted Indelible Ink, directions, &c., all put up in a neat tin case, sent by return mail, if possible, free of expense. He also cuts all kinds and sizes, of Plates for marking Boxes, Barrels, Bags, Robes, &c. He has constantly on hand all sizes of Alphabets, Figures, Brushes, &c. Receives orders for Steel Stamps of all kinds, Embossing and Cancelling Presses, &c. All as cheap as can be afforded. Try him. Direct to

H. W. FOLSOM,
[illegible] West Waterville, Maine.
